Field Trips and Events WINTER 2012

Download the handout on [Field Trips Here!](#)

Download the permission form for Field Trips here: [Permission Form](#) (for everyone)

(You may sign this permission form even if you will not participate in all of the field trips listed on the form.)

You are welcome to any of these events and can log them for your lab hours. This can also give you a guide as to the types of experiences you should look for if you do not live locally. In place of these field trips, visit a local museum or gallery. If you have limitations that stop you from visiting a museum or gallery, email or message me and I will give you fun alternatives.

If you cannot make the field trip dates, try to visit the exhibition during other open hours. Perhaps make plans to join with fellow students using the student exchange forum! As more events are planned I will let you know. Send me thoughts.

One of the goals of this class is learning and growing in your understanding of photography. It is your journey and adventure! ENJOY!!
